INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP03/12143

Box I Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The matter common to claims 1 to 14 resides exclusively in "rice-origin peroxidase".

However, rice-origin peroxidase is disclosed in a document "JP 7-91169 B" and a composition (plant growth promoter) containing rice-origin peroxidase is also described therein.

Namely, the rice origin peroxidase which is the common matter as described above falls within the category of prior art and, therefore, cannot be considered as "a special technical feature" in the meaning within the second sentence of PCT Rule 13.2. It is therefore obvious that claims 1 to 14 do not comply with the requirement of unity of invention. (Continued to extra sheet.)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest ☐ The additional search fees were accompanied by the applicant's protest.
☐ No protest accompanied the payment of additional search fees.

Continuation of Box No. II of continuation of first sheet(1)

The inventions according to claim 1 and parts of claims 3 to 9 relate to the prevention of fiber dye migration with the use of the rice-origin peroxidase. The inventions according to claim 2 and parts of claims 3 to 9 relate to the bleaching of a fiber dye with the use of the rice-origin peroxidase. The inventions according to claims 10 to 14 relate to compositions containing the rice-origin peroxidase which are not restricted in use to the prevention of fiber dye migration or bleaching thereof.
